Letters to the Editor:

Meeting with local government was very disappointing

DEAR EDITOR:

The citizens of Two Creeks Township along with guests from two neighboring townships had a chance to witness local government at its worst last Monday night.

However, before I get into that I would like to make a few comments about your paper. First, I would like to thank you for being an objective voice for the people. It is a sad state when a private enterprise like the Herald Times Reporter is more concerned and caring about the general public than those elected to hold the public trust. Second, I would like to apologize for the local town and county governments that use you as a scapegoat for their ineptness and deliberate attempts to keep affected citizens uninformed.

I would invite you to sit down to a question and answer session with the members of C.O.W.S. so you can get supported facts to let the public know the tragic details of the behavior of their government. The sad truth I fear is that whether this fiasco is stopped or not, other towns in this area of the state are targets to be plundered and disfigured by the greed behind this green power sham.

The board listened to about one hour of citizen's input. The town lawyer all but used the words; appeal the permit. I assume he did not want to appear to be dictating to the board. Instead the board carried on irrational babble and then denied the request for an appeal. The one member who stands to profit directly from the windmills put on a good contrite act, then voted to go for an appeal. Unfortunately he was overridden. From my point of view it looked like a rehearsed act. Quite frankly I think it would be irresponsible on the part of the concerned citizens to not pursue a recall election to remove these rascals before they do more damage.
